Subject: Techno-Commercial Quotation for “**SOLAR POWER PLANT**”
with Mono PERC Module.

Sir, Very good day to you!

Facilities we provide,

- 1. Solar Power Plants. (Domestic & Commercial).**
- 2. EV Charging Station (Domestic & Commercial).**

All the offered products are manufactured and designed by taking optimum quality basic material that is sourced from trustworthy vendors of this industry. Moreover, our quality experts examine the offered products against diverse quality parameters to make sure their accordance with predefined industry standards and quality norms.

Our offered solar products find their application in various commercial, residential and industrial sectors. To meet the client's precise demands and needs, we are offering these products in various technical specifications.

Sir, we would like to introduce our Techno commercial quotes for "**SOLAR POWER PLANTS**".

Thanks you very much!

Regards,

SORYOUTH RENEWABLE ENERGY PRIVATE LIMITED

Bill and Quantities for 3KW Solar Plant

Sr. No	Description	Quantity	Make
1	SPV Mono Panel 540 Watt Mono PERC Module	3KW	Mahindra Solarize
2	SOLAR GRID TIE INVERTER 3KW	1 No's	Mahindra OEM Growatt/Sungrow
3	GI MODULE MOUNTING STRUCTURE-FIXED ANGLE ROOF STRUCTURE 3KW	As per required	G.I. OR HDG OR AL
4	LIGHTENING ARRESTOR KIT	1 No's	Standard IEC Compliance
5	CABLE AND ACCESSORIES SET	As per required	POLYCAB
6	ACDB DCDB / LT PANEL 3KW	1 No's	ABB OR EQUIVALENT
7	EARTHING	3 No's	Standard IEC Compliance

Space required: 1kw = 80-100 sq.ft.

Total space required: 3KW = 240 sq.ft.

NOTE: Above mentioned items and/or quantity and cost may vary depending on actual site condition

Pricing for 3KW

Description of Items	QTY	Rate	Amount
Supply of 3 KW Rooftop Grid-tie Solar Power Plant	3 Watts	Rs. 65/- Per Watts	Rs. 1,95,000.00/-
CGST 6.9%			Rs. 13,455.00/-
SGST 6.9%			Rs. 13,455.00/-
TOTAL			Rs. 2,21,910.00/-
Subsidy Amount Approx. Rs. 0.00/-			

- Load Extension & Shifting Charges As Actual
- Sprinkler System Charges As Actual
- Cleaning of Solar Panel Charges As Actual

Payback with Benefit

CALCULATION

- PER KW PER DAY = 4 UNIT
- PER DAY TOTAL UNIT GENRATION = 12.00 UNIT (3KW x 4 = 12.00)
- PER YEAR UNIT CALCULATION = 4,380.00 UNIT 12.00 UNIT x 365 DAYS= 4,380.00)
- COST CALCULATION= 4,380.00 x 14 RS PER UNIT = Rs. 43,800.00/-

System Configuration

Basic components for grid connected system

- Solar PV module
- DC cable
- Structures
- Inverter/PCU
- Earthing & Lightning Arrestor

Protection

- DC side modules will be given DCDB for protection and to avoid any short circuit.
- AC side will be given ACDB as a protection on AC side So every care has been taken from our side so as to protect the system and give more life to system

Advantages

- Save electricity by using free source of solar energy
- One time investment and you can use free electricity for 25 years or more.
- Long life system
- Low maintenance

Scope of Work

- Design, Engineering, Supply, Installation & Commissioning of Solar PV Power Plant
- Detailed planning for smooth execution of project
- Performance testing of the complete system

Service after Sale

After sale service warranty will be 1 year for cables, inverters, etc.

Service warranty includes:

- Monitoring of system through the day, analysing daily and monthly generation & reconciling it with electricity bills, publishing quarterly and yearly report on gross and net savings, tracking service issues till they are resolved, identifying their root causes, maintaining configuration records, quarterly system audit, etc.
- Besides these, a managed service also covers activities such as loose connections, grid islanding check, firmware upgrades, etc.
